

**MEET KEVIN**  
**GRADE 10**  
**FUTURES**  
**STUDENT**

Kevin lives in a tiny mobile home with a 14-year old brother and their mother, a troubled woman who is hospitalized off and on. While Mom is getting hospital treatment, the two brothers are forced to live alone struggling to pay bills, with minimal help from an uncle. Mom's absences from home and ongoing health problems create havoc for Kevin as he tries to stay focused in school. He attends all of the CCF meetings. He is in desperate need of strong outside support so he was matched with a one-to-one mentor. Kevin expresses interest in the computer science field.  
 (This is a composite profile, not an actual student.)

**One-to-One Mentoring**  
*NOTE: About 10% of CCF students are high priority for a one-to-one mentor. The rest already have an adult role model they can turn to. 100% will have rich mentor interaction starting Fall '05 via the new Mentor Talent Bank.*
